Chairman's Message.

In the era of wonderful information technology, the mind everytime searches the whereabouts of the seniors, older friends and newer colleagues to come to any society. I mean, no more we take retirement to our confined loneliness. This is truer in academic societies that share knowledge and experience of members and inform the reach and availability of younger helping hands. We are in a transition phase when the digital format and the old model hard copy are running together to serve the purpose better. In this context, I am pleased to know that API Odisha is bringing out an updated members directory, in book format.

The earlier done directories were very useful. The process is dynamic with the sad departure of colleagues and welcome arrival of newer stars in the galaxy of physicians, necessitating newer editions.

I am really very happy that this edition is coming in my chairmanship tenure. Hope this comes handy to the member users. Long live API with academic supremacy and divine hands of serving to humanity.

Dr. Kartik Chandra Rout

Chairman 2018.

Editorial

Dear Members,

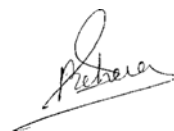

An updated members' directory of API Odisha is never a full-fledged success as the process is not a static one. By virtue of divine blessings and scientific achievements, the exits might be encountered less often but unfortunately are inevitable. And the entries are pleasantly ever rising with the increase of post-graduation seats and facilities.

This is only a sincere work of my team to publish the update as recent as possible based on my predecessors' enormous effort in collecting members data. I feel thankful to them. We tried not only to delete and add the numbers, which is necessary but also to edit the personal details, wherever it is required. We have not changed the manner of presentation based on the surname.

Despite our sincere efforts, inaccuracies are definite possibilities. All such errors should be brought to the notice of the successive office bearers and let this updating continue indefinitely.

I honestly acknowledge and feel fortunate for the suggestions and help I received from my revered seniors, dear colleagues and friends to make this work reasonably full proof. Hope it comes to good use to our members until it is updated again.

Long live API, serving humanity and fulfilling the academic quest.

(Dr Sarita Behera)

Hony Secretary 2017 & 18.
